

About Beyond Taiwan

We believe that everyone has a right to choose their own education.

Hello!

*We are **Beyond Taiwan***

A student-led nonprofit striving to make alternative college options accessible.

Who we are

- Started by a group of enthusiastic and compassionate college students, Beyond Taiwan is a non-profit organization dedicated to helping **public high school students** choose their own educational journey.
- We believe that a personalized education can empower individuals to lead a successful and influential career and life as a whole.
- By providing knowledge transfers, 1-1 mentorships, and a supportive community, we strive to make alternative, non-traditional college options accessible.

How we are different

100% Local-based

We are local high school graduates helping out local high school students. We make sure the institutional knowledge is **100% relevant**.

Community building

Apart from 1-1 relationships, we hold **socials and networking events** to foster the Taiwanese international student community.

Meet the **Team**

The Beyond Taiwan Board comes from different colleges all over the world, but with the same goal in mind: to help the Taiwanese youth- especially the financially and informationally underprivileged- in college applications and beyond.
